Dean T. Hartwell

Read author Dean T. Hartwell's latest thoughts on 9/11, including whether Navy SEALs really killed bin Laden and why the public could not find its way out of the "box" that the official theory placed it in!

Hartwell puts into regular-sized font all of his work on the subject of 9/11. You will receive the following:

Part One - "Indictment of Conspiracy," a chapter from his book "Dead Men Talking: Consequences of Government Lies." Hartwell identifies many of the perpetrators of the crimes of 9/11 and states what they did and with whom they did it. Part Two - the entire best-selling book "Planes without Passengers: the Faked Hijackings of 9/11." Hartwell gives a compelling hypothesis, backed by fact and circumstantial evidence, that the plotters used planes and passengers as props to simulate hijackings and to misdirect the investigation. Part Three - a series of essays on the topic of 9/11 going back to Hartwell's writings from 2005 to the present. Among them is "If a Good Man Would Have Talked: the Grand Jury Testimony of Colin Powell," a fictional hearing in which the reader learns the group of people behind the whole crimes. Another essay, "Osama bin Laden Had Nothing to Do with 9/11" is a timely and well-reasoned argument that the United States used bin Laden, first as a partner in fighting the old Soviet Union in Afghanistan, and then as a scapegoat for the events of 9/11. Readers can also get a sense not only of what really happened on September 11, 2001 but how the event was planned and intended to be carried out. A good essay for this concept is "How the Plotters Scripted 9/11." The brand-new Afterword tells how we, the public, become so easily misled by what our leaders and by what the media explain to us about events like 9/11. Hartwell demonstrates that this tragedy was planned well in advance and had as its foreshadowing events that took place in Iran and other parts of the Middle East over thirty years ago! Here is a sample of the Afterword: "The assumption of Flight 11 led to the assumption of a hijacking, in which terrorists flew this plane (and others) into targets to kill passengers and destroy property. The assumptions right from the beginning conveniently absolved anyone on the inside (government officials and agents) from any wrongdoing. And, after hearing repeatedly in the media about the flights with their numbers and details about alleged passengers, few people were willing to question any of it. There never was a commercial American Flight 11 on that day. Instead, as I point out in Part Two, Planes without Passengers: the Faked Hijackings of 9/11, a passengerless flight took off from Boston that morning and became identified as Flight 11 on the screens. The real Flight 11 was grounded, hidden in some hanger and available for use for fake air phone calls. The same script was used for the other three planes to complete what became the official version of events. The gist of the story is simple: bin Laden's people hijacked the planes, all of the passengers are dead and no one in our government knew about it ahead of time or had anything to do with it..." Get all of this from one 9/11 researcher who takes the time to explain to readers why he believes as he does.
