Gestão da cadeia de suprimentos integrada à Tecnologia da Informação (Portuguese Edition) Carlos Francisco Simões Gomes, Priscilla Cristina Cabral Ribeiro, Carlos Francisco

A logística precisa de uma rede de informações bem integrada para que produtos e/ou serviços sejam disponibilizados com qualidade, no lugar desejado e no prazo acordado. Como toda essa informação tem de ser gerada e guardada em segurança, a Tecnologia de Informação (TI) se faz necessária. Gestão da cadeia de suprimentos integrada à Tecnologia da Informação é lançada em um momento em que o cenário econômico privilegia investimentos em infraestrutura logística e em TI. Na obra, são abordadas as diferenças entre logística e gestão da cadeia de suprimentos e, com a atualização do conteúdo, estão disponíveis novas referências bibliográficas.
