Learning Web Development with Bootstrap and AngularJS

Stephen Radford

Learning Web Development with Bootstrap and AngularJS Stephen Radford

Build your own web app with Bootstrap and AngularJS, utilizing the latest web technologies

About This Book

- Build, develop, and customize your application using Angular.js and Bootstrap
- Utilize AngularStrap to pull in Bootstrap's jQuery plugins through Angular directives
- Packed with tips to help you avoid potential stumbling blocks while developing

Who This Book Is For

Whether you know a little about Bootstrap or AngularJS, or you're a complete beginner, this book will enhance your capabilities in both frameworks and you'll build a fully functional web app. A working knowledge of HTML, CSS, and JavaScript is required to fully get to grips with Bootstrap and AngularJS.

What You Will Learn

- Explore Angular's built-in filters and create your own
- Create a multi-view web app using AngularJS's router and templating system
- Integrate AngularStrap to utilize the many plugins originally created by the Bootstrap team
- Customize Bootstrap using Less to create a unique theme
- Maintain the codebase of your app using the gulp and Grunt.js task-runner tools
- Discover the meaning of CRUD and how to implement it
- Troubleshoot any issues you may encounter while developing

In Detail

If you're ready to progress your web development skills past HTML and CSS, this book will give you everything you need to build your own web app. You'll be taught the basics of Bootstrap and AngularJS, taking an in-depth look at what makes up each framework. After you've mastered the ideology, you'll put it into action as you build a contact manager throughout the course of the book.

We'll look at filters, routing, and views for your app and will teach you to utilize CRUD (Create, Read, Update, and Delete) to develop further. You'll learn how to connect your app to the server, customize Bootstrap, and build a directive. Along the way we'll touch on additional technologies such as Less, gulp, Grunt, and AngularStrap. Finally, we'll take a look at potential stumbling blocks and will give you tips to avoid them.

With this step-by-step guide packed with plenty of screenshots, you'll be building web apps in no time.
