Heidegger's Being and Time: Critical Essays (Critical Essays on the Classics Series)

Heidegger's Being and Time: Critical Essays provides a variety of recent studies of Heidegger's most important work. Twelve prominent scholars, representing diverse nationalities, generations, and interpretive approaches deal with general methodological and ontological questions, particular issues in Heidegger's text, and the relation between Being and Time and Heidegger's later thought. All of the essays presented in this volume were never before available in an English-language anthology. Two of the essays have never before been published in any language (Dreyfus and Guignon); three of the essays have never been published in English before (Grondin, Kisiel, and ThomS), and two of the essays provide previews of works in progress by major scholars (Dreyfus and Kisiel).
