Henri Colt, Septimiu Murgu

Bronchoscopy and Central Airway Disorders provides the guidance you need to plan and implement the most effective bronchoscopy procedure for every patient. Through specifically-designed case scenarios with correlating review questions and videos, this practical respiratory medicine reference leads you through the decision-making process and execution of these sometimes complex procedures, as well as the optimal long-term management of your patients.

- **Master various bronchoscopic approaches and techniques** necessary to treat a variety of malignancies that may occur in the trachea or lungs.
- **Consider the rationale and weigh the consequences of each approach.** Case resolutions at the end of each chapter --with commentary and alternative approaches from 36 key experts in interventional bronchoscopy -- illustrate the decision-making process from patient evaluation through long-term management.
- **Reinforce learning by correlating key concepts and practice** through study questions related to each clinical scenario.
- **See exactly how to proceed with high-quality videos online** that capture crucial teaching moments and provide a walkthrough of sometimes complex procedures including the **placement of airway stents via bronchoscopy** for a variety of diseases and complications, such as airway collapse due to COPD.
- **Systematically think through diagnostic and interventional (therapeutic) bronchoscopic procedures using Dr. Colt's unique "Four Box" approach:** Initial Evaluation; Procedural Techniques and Results; Procedural Strategies; and Long-term Management Plan.
