Connecting Children: Care and Family Life in Later Childhood Kalwant Bhopal, Julia Brannen, Ellen Heptinstall

Connecting Children focuses on children's understandings of care and their views of different family lives. It portrays the lives of children aged 11-12 and shows how families connect children in different ways both in the household but also in their wider kinship networks. The children studied reflect upon family life and especially upon situations where their own family lives change dramatically, such as when parents divorce or are unable to care for them.

This book will be of interest to those working in education, social work, child care, counselling, social policy and childhood studies.
