Elections in Asia and the Pacific : A Data Handbook: Volume II: South East Asia, East Asia, and the South Pacific: 2

This two-volume work continues the series of election data handbooks published by OUP. It presents a first-ever compendium of electoral data for all the 62 states in Asia, Australia and Oceania from their independence to the present. Following the overall structure of the series, an initial comparative introduction on elections and electoral systems is followed by chapters on each state of the region. Written by knowledgeable and renowned scholars, the contributions examine the evolution of institutional and electoral arrangements, and provide systematic surveys of the up-to-date electoral provisions and their historical development. Exhaustive statistics on national elections and referendums are given in each chapter. Together with the other books of this series, *Elections in Asia and the Pacific* is a highly reliable resource for historical and cross-national comparisons of elections and electoral systems world-wide.

The second volume of *Elections in Asia and the Pacific* covers the Asia-Pacific area, i.e. the 30 independent states of East Asia (including Japan), South East Asia and the South Pacific (including Australia and New Zealand).
