## **Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in Electrical and Computer Engineering)** Rose Qingyang Hu, Yi Qian

This SpringerBrief provides an in-depth look at the key issues that affect the performance of heterogeneous networks and presents schemes that can effectively tackle these issues. In particular, this book discusses unbalanced traffic load among the macro and micro Base Stations (BSs) caused by the transmit power disparity, and a load-balancing based mobile association scheme to balance the traffic load among the macro and micro BSs. This book also introduces a fractional frequency reuse (FFR) scheme with proper power control to help reduce interference at the UEs which are most vulnerable to such intra-cell interference. The last section investigates radio resource allocation issues for heterogeneous networks with cooperative relays, and proposes a resource allocation framework that could achieve proportional fairness among the UEs. Numerical results are provided to demonstrate the effectiveness of the proposed solutions in tackling the problem and improving network performance. Resource Management for Heterogeneous Networks in LTE-A Systems is designed for researchers and professionals working in networking and resource management. The content is also valuable for advanced-level students in computer science and electrical engineering.

### **From reader reviews:**

#### **Joseph Taylor:**

Information is provisions for folks to get better life, information currently can get by anyone in everywhere. The information can be a understanding or any news even restricted. What people must be consider while those information which is within the former life are hard to be find than now could be taking seriously which one would work to believe or which one the particular resource are convinced. If you obtain the unstable resource then you have it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in Electrical and Computer Engineering) as your daily resource information.

#### **Eva Pham:**

The e-book untitled Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in Electrical and Computer Engineering) is the guide that recommended to you to read. You can see the quality of the guide content that will be shown to you actually. The language that writer use to explained their way of doing something is easily to understand. The copy writer was did a lot of analysis when write the book, so the information that they share for your requirements is absolutely accurate. You also could get the e-book of Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in Electrical and Computer Engineering) from the publisher to make you more enjoy free time.

#### **Phyllis Tucker:**

Spent a free time for you to be fun activity to do! A lot of people spent their spare time with their family, or their very own friends. Usually they accomplishing activity like watching television, planning to beach, or picnic within the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Could be reading a book might be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to consider look for book, may be the e-book untitled Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in Electrical and Computer Engineering) can be very good book to read. May be it may be best activity to you.

#### **Kent Moore:**

Reading a book for being new life style in this yr; every people loves to learn a book. When you read a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you would like get information about your analysis, you can read education books, but if you act like you want to entertain yourself read a fiction books, this kind of us novel, comics, and soon. The Resource Management for Heterogeneous Networks in LTE Systems (SpringerBriefs in

Electrical and Computer Engineering) offer you a new experience in studying a book.
