We were always prepared for rain, since it rained quite often when we went sailing with Tad-cu. However, nothing we had experienced so far had equipped us for this level of storm and the force of this rain. The boat was being lifted high into the air, and it would crash down to hit the sea water with a thud. Gwendolyn, Meredith, and Jennifer are fascinated with sailing and frequently go sailing with Gwendolyn's grandfather. Their love for sailing propels them into a treacherous decision to take the sailboat out by themselves. Fighting storms at sea and life threatening situations, they eventually land on an unknown shore where they face a whole new set of hardships and dangers. Where are they? How long has it been since they sailed away from Wales? Will they ever see their homes and families again?
