Guerra contra los medicamentos genéricos (Spanish Edition) Germán Holguín

"Nosotros no hacemos negocios para salvar vidas sino para hacer dinero. Salvar vidas no es nuestro negocio".

- Director de Roche Korea

Más de diez millones de personas mueren en el mundo cada año por falta de medicamentos. La guerra con# los medicamentos genéricos revela las características de este drama, su impacto social y las causas determinantes, haciendo visible cómo los grandes laboratorios farmacéuticos y sus gobiernos han implantado un sistema de control del mercado que priva a millones de personas del acceso a medicamentos de bajo costo que evitarían o curarían sus enfermedades.

Por primera vez aparece en español un libro serio y valiente sobre cómo funciona el sector farmacéutico, por qué los precios de muchos medicamentos en los países de ingreso medio y bajo son los más altos del mundo, por encima de Estados Unidos y Europa y cuáles son los verdaderos intereses del Big Pharma para mantener vigente el bloqueo de los medicamentos de bajo costo. Un libro que defiende la oferta de genéricos y presenta propuestas concretas y urgentes que salvarían millones de vidas.

"La humanidad no puede cerrar los ojos ante un drama tan alarmante".

- Juan Pablo II

"La vida de millones de los más pobres ciudadanos del mundo depende críticamente del acceso a medicinas asequibles".

- Jim Yong Kim, Presidente del Banco Mundial.
