Teaching children to develop as language users is one of the most important tasks of a primary school teacher. However, many trainee teachers begin their careers with a low knowledge base.

*Language Knowledge for Primary Teachers* is the reader friendly guide designed to address this. This book provides a clear explanation of the knowledge and understanding required by teachers to implement the objectives of the National Curriculum for English. It reveals how an explicit knowledge of language can enrich their own and their children's spoken English. It will give teachers confidence in developing children's enjoyment and comprehension of reading and writing so children can use their language skills in the real world.

Updated to include references to the new curriculum, this book explores:

- The importance of subject knowledge in supporting children in language and literacy;
- Language knowledge within the context of authentic and meaningful texts, from fiction to 'Facebook';
- The links between subject knowledge and real teaching situations;
- New areas on talk and dialogic learning;
- Increased emphasis on ICT and cross-curricular study.

This book will appeal to all trainee and newly qualified teachers needing to achieve both the demands of subject knowledge for Qualified Teacher Status, and a firm understanding of the expectations of the National Curriculum for English.
