Globalization and Neoliberalism: The Caribbean Context

How do recent trends toward globalization affect the Caribbean, a region whose suppliers, production, markets, and politics have been globalized for centuries? What is the status of neoliberal development policy in the Caribbean, where the rewards for belt tightening and economic opening have been slow in coming? How have Caribbean policymakers and citizens responded to and resisted the pressures to conform to the new rules of the global economy? By examining these questions through the lens of political economy, this volume explores the interaction among development, trade, foreign policy, the environment, tourism, gender relations, and migration. With its global implications, this book will be invaluable for students and scholars from all disciplines who are concerned with the impact of development and globalization.
