The first edition of this book was quickly acclaimed as the new leading text worldwide on the law and practice of pollution from ships. The second edition deals with a variety of developments since then in this fast-moving subject: the Erika and the Prestige; changes in international law on maritime safety and compensation; latest decisions on claims for compensation; analysis of the SCOPIC regime; new material on ports of refuge, transboundary movements, and pollution from offshore craft; latest cases and regulatory changes in the US; and enlarged chapters on enforcement of laws and criminal sanctions. Like its predecessor, the second edition is superbly indexed and written clearly with the needs in mind of a wide international readership.
