## Reason, Truth and Self: The Postmodern Reconditioned Michael Luntley

Michael Luntley provides a lively introduction to the debate over postmodernism. Sympathisers of the postmodernist critique of absolute knowledge have jettisoned concepts of reason, truth and self; this abandonment has fuelled their opponents' case against postmodernism. This has led them to ignore the very real problems raised by the postmodernists. Luntley offers a clear and careful exposition of how rational debate survives despite the Enlightenment's failings.

*Reason, Truth and Self* covers many of the key questions of our age:

- \* How rational is science?
- \* Can we really know the truth about ourselves and the world?
- \* What is the nature of the mind?
- \* Can we know the difference between right and wrong?

*Reason, Truth and Self* is ideal for courses in philosophy and the social sciences.
