**Battery Power Management for Portable Devices (Artech House Power Engineering)** Yevgen Barsukov, Jinrong Qian

The introduction of Li-ion batteries in 1991 created a tremendous change in the handheld devices landscape. Since then, the energy stored and put to use in palm-sized electronic devices has quadrupled. Devices are continuously getting more power hungry, outpacing battery development. Written by leading engineers in the field, This cutting-edge resource helps you overcome this challenge, offering you an insightful overview and in-depth guide to the many varied areas of battery power management for portable devices.

You find the latest details on optimizing charging circuits, developing battery gauges that provide the longest possible run-time while ensuring data protection, and utilizing safety circuits that provide multiple independent levels of protection for highly energetic batteries. This unique book features detailed design examples of whole systems, providing you with the real-world perspective needed to put this knowledge into practice. You get the state-of-the-art know-how you need to perfect your device designs, helping you make them strong competitors in the fast-growing portable device marketplace.

### **From reader reviews:**

#### **Holly Flynn:**

Your reading 6th sense will not betray a person, why because this Battery Power Management for Portable Devices (Artech House Power Engineering) guide written by well-known writer who knows well how to make book that could be understand by anyone who else read the book. Written within good manner for you, still dripping wet every ideas and publishing skill only for eliminate your personal hunger then you still uncertainty Battery Power Management for Portable Devices (Artech House Power Engineering) as good book not only by the cover but also from the content. This is one publication that can break don't assess book by its protect, so do you still needing yet another sixth sense to pick this particular!? Oh come on your reading through sixth sense already told you so why you have to listening to a different sixth sense.

#### **James Collins:**

Are you kind of active person, only have 10 or 15 minute in your day to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are experiencing problem with the book in comparison with can satisfy your short space of time to read it because this time you only find publication that need more time to be study. Battery Power Management for Portable Devices (Artech House Power Engineering) can be your answer because it can be read by you actually who have those short free time problems.

#### **Maria Lamotte:**

Beside this Battery Power Management for Portable Devices (Artech House Power Engineering) in your phone, it can give you a way to get more close to the new knowledge or information. The information and the knowledge you might got here is fresh from the oven so don't become worry if you feel like an previous people live in narrow village. It is good thing to have Battery Power Management for Portable Devices (Artech House Power Engineering) because this book offers to you readable information. Do you at times have book but you do not get what it's all about. Oh come on, that wil happen if you have this in your hand. The Enjoyable blend here cannot be questionable, just like treasuring beautiful island. So do you still want to miss that? Find this book in addition to read it from today!

#### **Corinne Schlegel:**

That reserve can make you to feel relax. This book Battery Power Management for Portable Devices (Artech House Power Engineering) was vibrant and of course has pictures on there. As we know that book Battery Power Management for Portable Devices (Artech House Power Engineering) has many kinds or category. Start from kids until teens. For example Naruto or Investigator Conan you can read and think you are the character on there. Therefore not at all of book are make you bored, any it offers you feel happy, fun and unwind. Try to choose the best book to suit your needs and try to like reading this.
