## **The Ethics of Psychological Research** J.D. Keehn

The Ethics of Psychological Research contains expanded versions of original presentations reported in a two-day symposium on Ethics in Psychological Research held at Atkinson College, York University, near Toronto in September 1980.

The book is organized into three major sections, wherein the first deals with ethical principles and regulations, the second with ethics of research with special populations, and the third with problems associated with applications of scientific knowledge. A concluding section then details the results of a psychological research method applied to the question of a psychological ethic.
