## Food Flavour Technology (Sheffield Food Technology)

Flavour creation has always been an art but there is an increasing scientific and technological basis behind the various parts of the process.

This volume provides a state-of-the-art review of flavour technology, covering sources of flavour, flavour creation/formulation, flavour generation/production, flavour delivery, flavour analysis and flavour regulation. A generic, science-based approach is adopted, rather than an approach based on recipes or commodities.
