## Everything Belongs to the Future Laurie Penny

*Time is a weapon wielded by the rich, who have excess of it, against the rest, who must trade every breath of it against the promise of another day's food and shelter. What kind of world have we made, where human beings can live centuries if only they can afford the fix? What kind of creatures have we become? The same as we always were, but keener.*

In the ancient heart of Oxford University, the ultra-rich celebrate their vastly extended lifespans. But a few surprises are in store for them. From Nina and Alex, Margo and Fidget, scruffy anarchists sharing living space with an ever-shifting cast of crusty punks and lost kids. And also from the scientist who invented the longevity treatment in the first place.

*Everything Belongs to the Future* is a bloody-minded tale of time, betrayal, desperation, and hope that could only have been told by the inimitable Laurie Penny.
