Fascinating in its combination of personal stories and analytical insights, *Some Trouble with Cows* will help students of conflict understand how a seemingly irrational and archaic riot becomes a means for renegotiating the distribution of power and rights in a small community.

Using first-person accounts of Hindus and Muslims in a remote Bangladeshi village, Beth Roy evocatively describes and analyzes a large-scale riot that profoundly altered life in the area in the 1950s. She provides a rare glimpse into the hearts and minds of the participants and their families, while touching on a range of broader issues that are vital to the sociology of communities in conflict: the changing meaning of *community*; the impact of *the state* on local society; the nature of *memory*; and the force of *neighborly enmity* in reshaping power relationships during periods of change.

Roy's findings illustrate important theoretical issues in psychology and sociology, and her conclusions will greatly interest students of ethnic/race relations, conflict resolution, the sociology of violence, agrarian society, and South Asia.
