The SAGE Handbook of Remote Sensing (Sage Handbooks) Timothy A Warner, M Duane Nellis, Giles M Foody

'A magnificent achievement. A who's who of contemporary remote sensing have produced an engaging, wide-ranging and scholarly review of the field in just one volume' - Professor Paul Curran, Vice-Chancellor, Bournemouth University. Remote Sensing acquires and interprets small or large-scale data about the Earth from a distance. Using a wide range of spatial, spectral, temporal, and radiometric scales Remote Sensing is a large and diverse field for which this Handbook will be the key research reference. Organized in four key sections: Interactions of Electromagnetic Radiation with the Terrestrial Environment : chapters on Visible, Near-IR and Shortwave IR; Middle IR (3-5 micrometers); Thermal IR ; Microwave. Digital sensors and Image Characteristics : chapters on Sensor Technology; Coarse Spatial Resolution Optical Sensors ; Medium Spatial Resolution Optical Sensors; Fine Spatial Resolution Optical Sensors; Video Imaging and Multispectral Digital Photography; Hyperspectral Sensors; Radar and Passive Microwave Sensors; Lidar. Remote Sensing Analysis - Design and Implementation: chapters on Image Pre-Processing; Ground Data Collection; Integration with GIS; Quantitative Models in Remote Sensing; Validation and accuracy assessment;. Remote Sensing Analysis - Applications: LITHOSPHERIC SCIENCES: chapters on Topography; Geology; Soils; PLANT SCIENCES: Vegetation; Agriculture; HYDROSPHERIC and CRYOSPHERIC SCIENCES: Hydrosphere: Fresh and Ocean Water; Cryosphere; GLOBAL CHANGE AND HUMAN ENVIRONMENTS: Earth Systems; Human Environments & Links to the Social Sciences; Real Time Monitoring Systems and Disaster Management; Land Cover Change. Illustrated throughout, an essential resource for the analysis of remotely sensed data, the SAGE Handbook of Remote Sensing provides researchers with a definitive statement of the core concepts and methodologies in the discipline.

From reader reviews:

Joni Griffith:

Now a day folks who Living in the era everywhere everything reachable by match the internet and the resources inside can be true or not call for people to be aware of each facts they get. How individuals to be smart in having any information nowadays? Of course the reply is reading a book. Examining a book can help folks out of this uncertainty Information specially this The SAGE Handbook of Remote Sensing (Sage Handbooks) book because book offers you rich information and knowledge. Of course the info in this book hundred per cent guarantees there is no doubt in it as you know.

Gina Gregg:

Reading a book tends to be new life style with this era globalization. With reading through you can get a lot of information that could give you benefit in your life. Having book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Many author can inspire their reader with their story or maybe their experience. Not only the storyplot that share in the guides. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors on earth always try to improve their skill in writing, they also doing some analysis before they write to their book. One of them is this The SAGE Handbook of Remote Sensing (Sage Handbooks).

Deborah Ayers:

People live in this new day time of lifestyle always make an effort to and must have the extra time or they will get wide range of stress from both day to day life and work. So , when we ask do people have free time, we will say absolutely without a doubt. People is human not really a huge robot. Then we request again, what kind of activity have you got when the spare time coming to you of course your answer will probably unlimited right. Then ever try this one, reading guides. It can be your alternative in spending your spare time, often the book you have read will be The SAGE Handbook of Remote Sensing (Sage Handbooks).

Daniel Adams:

This The SAGE Handbook of Remote Sensing (Sage Handbooks) is great book for you because the content that is certainly full of information for you who also always deal with world and also have to make decision every minute. This kind of book reveal it information accurately using great organize word or we can say no rambling sentences inside. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but hard core information with beautiful delivering sentences. Having The SAGE Handbook of Remote Sensing (Sage Handbooks) in your hand like keeping the world in your arm, details in it is not ridiculous one particular. We can say that no publication that offer you world in ten or fifteen tiny right but this e-book already do that. So , this is good reading book. Hello Mr. and Mrs. hectic do you still doubt which?
