**Force Multiplying Technologies for Logistics Support to Military Operations** Committee on Force Multiplying Technologies for Logistics Support to Military Operations, Board on Army Science and Technology, Division on Engineering and Physical Sciences, National Research Council

The mission of the United States Army is to fight and win our nation's wars by providing prompt, sustained land dominance across the full range of military operations and spectrum of conflict in support of combatant commanders. Accomplishing this mission rests on the ability of the Army to equip and move its forces to the battle and sustain them while they are engaged. Logistics provides the backbone for Army combat operations. Without fuel, ammunition, rations, and other supplies, the Army would grind to a halt. The U.S. military must be prepared to fight anywhere on the globe and, in an era of coalition warfare, to logistically support its allies. While aircraft can move large amounts of supplies, the vast majority must be carried on ocean going vessels and unloaded at ports that may be at a great distance from the battlefield. As the wars in Afghanistan and Iraq have shown, the costs of conveying vast quantities of supplies is tallied not only in economic terms but also in terms of lives lost in the movement of the materiel. As the ability of potential enemies to interdict movement to the battlefield and interdict movements in the battlespace increases, the challenge of logistics grows even larger. No matter how the nature of battle develops, logistics will remain a key factor.

*Force Multiplying Technologies for Logistics Support to Military Operations* explores Army logistics in a global, complex environment that includes the increasing use of antiaccess and area-denial tactics and technologies by potential adversaries. This report describes new technologies and systems that would reduce the demand for logistics and meet the demand at the point of need, make maintenance more efficient, improve inter- and intratheater mobility, and improve near-real-time, in-transit visibility. *Force Multiplying Technologies* also explores options for the Army to operate with the other services and improve its support of Special Operations Forces. This report provides a logistics-centric research and development investment strategy and illustrative examples of how improved logistics could look in the future.

**From reader reviews:**

**Serina Horne:**

Why don't make it to be your habit? Right now, try to ready your time to do the important take action, like looking for your favorite book and reading a e-book. Beside you can solve your condition; you can add your knowledge by the e-book entitled Force Multiplying Technologies for Logistics Support to Military Operations. Try to stumble through book Force Multiplying Technologies for Logistics Support to Military Operations as your good friend. It means that it can to become your friend when you sense alone and beside associated with course make you smarter than ever before. Yeah, it is very fortunated for you personally. The book makes you a lot more confidence because you can know everything by the book. So , let's make new experience and knowledge with this book.

**Johnna Chapin:**

The guide with title Force Multiplying Technologies for Logistics Support to Military Operations posseses a lot of information that you can understand it. You can get a lot of profit after read this book. This particular book exist new knowledge the information that exist in this reserve represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This book will bring you with new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read that anywhere you want.

**Robert Defazio:**

A lot of guide has printed but it differs from the others. You can get it by online on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever through searching from it. It is named of book Force Multiplying Technologies for Logistics Support to Military Operations. You'll be able to your knowledge by it. Without causing the printed book, it could add your knowledge and make an individual happier to read. It is most significant that, you must aware about guide. It can bring you from one spot to other place.

**Chester Hassel:**

Reading a e-book make you to get more knowledge from it. You can take knowledge and information from your book. Book is published or printed or descriptive from each source that will filled update of news. In this modern era like today, many ways to get information are available for you actually. From media social just like newspaper, magazines, science publication, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just seeking the Force Multiplying Technologies for Logistics Support to Military Operations when you essential it?
